

CONFIDENTIAL

1 NOV 1963

ADMI-11

MEMORANDUM FOR: Executive Director
Deputy Director (Intelligence)
Deputy Director (Plans)
Deputy Director (Science and Technology)
Inspector General
General Counsel
Comptroller

SUBJECT : Proposed Amendment of Regulatory Issuances

25X1A

1. concerning the Agency Regulatory System, assigns to the Deputy Director (Support) responsibility for administering the system and states that he "shall assure adequate coordination. . . of regulatory issuances. . ." Aside from this general assignment of responsibility nothing is said on the subject of coordination.

2. Coordination procedures have been developed in practice which are generally satisfactory. Most regulatory issuances are coordinated and published without difficulty or undue delay. There are occasional exceptions, however, instances in which the process of review and negotiation tends to go on indefinitely, which suggest a need to state more explicitly the responsibilities of Agency components in assuring adequate and timely coordination of regulatory material.

3. Attached for your consideration is a paragraph which I suggest be added to the present I would appreciate having your comments at your early convenience.

L. K. White
Deputy Director
(Support)

Att: As Stated
